

## Technical Data Sheet

|                      |                                    |
|----------------------|------------------------------------|
| Product Name         | Fish Feed 30 % Protein             |
| Product Form         | Extruded Pellet 2-8 mm Pellet size |
| Product Bulk Density | Max 440 g/l                        |
| Animal Type          | Carp Species                       |
| bagging              | Polythene bag 25 kg                |
| Versison             | 1                                  |
| Data                 | 01-01-2023                         |

### Product Specifications

#### Typical Chemical Specification

| parameter        | Unit | specification |
|------------------|------|---------------|
| Protein          | %    | 30 ± 1.2      |
| moiture          | %    | 12 Max        |
| Ash              | %    | 12 Max        |
| Fiber            | %    | 5 Max         |
| Fat              | %    | 6 ± 1.2       |
| Calicum          | %    | ≥ 1           |
| Total Phosphorus | %    | ≥ 1           |
| <EPA+DHA         | %    | ≥0.16         |
| ME Fish          | Kcal | 3000 ± 100    |

|            |                                                                                               |
|------------|-----------------------------------------------------------------------------------------------|
| Salmonella | Not present in 25g                                                                            |
| Mycotoxins | Less than 20 ppb to not exceed the proportion of aflatoxin B1 from 10 ppb of total aflatoxins |
| Melamine   | Not present ( < 2,5 mg/kg)                                                                    |

|                   |                                                            |
|-------------------|------------------------------------------------------------|
| Produt Shelf Life | 6 Month From Production Date                               |
| Storage Condition | Store in a well ventilated place away from direct sunlight |
